

REHAN ALEX RAJEEV
B.Tech. - Computer Science & Engineering
Ph: +91-8078142617
Email: rehanalexrajeev.b23cs1155@mbcet.ac.in
Thiruvananthapuram, Kerala, India - 695011

PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate with a strong foundation in programming, machine learning, data structures, and problem-solving. Passionate about developing efficient software solutions and learning emerging technologies such as artificial intelligence and cloud computing. Seeking opportunities to apply technical skills in real-world projects and grow as a software professional.

KEY EXPERTISE

Programming Languages: C, Python, Java, JavaScript, HTML, CSS

Core Subjects: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems (Basics)

Domains: Machine Learning, Cyber Security

EDUCATION

Mar Baselios College of Engineering and Technology (Autonomous)

2023 - 2027

B.Tech. - Computer Science & Engineering | CGPA: 7.45 / 10

St Mary's Higher Secondary School, Pattom, Thiruvananthapuram

2023

12th | KBHSE | Percentage: 93.61 / 100

Loyola School, Thiruvananthapuram

2021

10th | CISCE | Percentage: 92 / 100

INTERSHIPS

IBM SkillsBuild (in collaboration with CSRBOX Foundation) | IT / Computers - Software

04 Jul, 2025 - 07 Aug, 2025

AI Trainee/ Project-Based Learning Trainee

Key Skills: Artificial Intelligence | Agentic AI | AI Agents | Prompt Engineering

Successfully completed a 4-week online IBM SkillsBuild Project Based Learning Program in collaboration with CSRBOX on "Agentic AI: From Learner to Builder – Become an AI Agent Architect." Gained hands-on experience in Artificial Intelligence,

Intel Unnati Industrial Training-2024

01 May, 2024 - 31 Jul, 2024

Student Intern

Key Skills: Python | Algorithm Design | Problem Solving

Smart kitchen application that recommends recipes and dynamically displays ingredients and cooking instructions based on the user's selected food item and serving size.

PROJECTS

AI-Powered Mobile Platform for Democratizing Sports Talent Assessment

12 Sep, 2025 - 10 Dec, 2025

Team Size: 6

Key Skills: Computer Vision | Machine Learning | MediaPipe Pose Estimation | Dashboard Development

Project Link: https://github.com/Rehan2910/ai-situp-trainer-SIH_HACKATHON

Developed an AI-powered mobile application for sports talent assessment using computer vision to analyze fitness activities like sit-ups, jumps, and running in real time. The system provides instant feedback on performance and posture using MediaPipe and OpenCV. Built with Python and Gradio, it includes cheat detection, leaderboard ranking, and gamification features. Designed for offline use on low-end smartphones to ensure accessibility in rural areas, enabling scalable and fair athlete talent identification.

Smart Solar Tracking System

Team Size: 4

Key Skills: Arduino Programming | IoT | MySQL | Hardware Integration

Project Link: <https://github.com/Rehan2910/smart-solar-tracker>

Built an autonomous solar tracking system using dual LDR sensors and an Arduino-controlled servo to keep a solar panel angled toward the sun, addressing the ~30% efficiency loss of fixed panels. Developed the firmware (sensor logic + servo control), a Node-RED pipeline to parse and log sensor/servo data, and a MySQL database for real-time tracking history.

MMCBIE-PRO

Mentor: Indu V | **Team Size:** 4

Key Skills: Python Image Encryption Image processing Cryptography

Project Link: <https://github.com/Rehan2910/mmcbie-pro>

MMCBIE PRO is a Python-based image encryption application that leverages chaos theory and mathematical attractors (such as the Lorenz system) to perform secure pixel-level image encryption and decryption, featuring a web-based UI for real-time interaction, histogram analysis to validate encryption strength, and multiple chaos methods to ensure robust protection for sensitive image data.

AI-Powered Mental Health Chatbot

Team Size: 8

Key Skills: Machine Learning React.js RoBERTa

Project Link: <https://github.com/Rehan2910/AI-Powered-Mental-Health-Chatbot>

Developed SerenityBot, an AI-powered mental health chatbot for students and young adults using FastAPI, React (TypeScript), and Gemini/GPT-4, featuring RoBERTa-based real-time emotion detection, crisis alert system, WebSocket support, and a glassmorphism UI with dual theme modes for an accessible and therapeutic user experience.

ACHIEVEMENTS

- Qualified for the Preliminary Round of Smart India Hackathon (SIH) in 2025

ASSESSMENTS / CERTIFICATIONS

Java Programming 2022

Provider: Infosys Springboard

Key Skills: Core Java Object-Oriented Programming (OOP) Exception Handling Arrays

Completed the Java Programming course from Infosys Springboard, gaining knowledge of core Java concepts including OOPs, control structures, arrays, exception handling, and file handling.

Python Fundamentals

Provider: Infosys Springboard

Key Skills: Python Programming Functions Data Structures Problem Solving

Completed the Python Fundamentals course from Infosys Springboard, gaining a strong understanding of core Python concepts including variables, data types, loops, functions, OOPs, file handling, and exception handling. Built problem-solving skills through hands-on coding practice

Smart India Hackathon 2025

Provider: The Ministry of Education's Innovation Cell (MIC), the All India Council for Technical Education (AICTE) AI-POWERED SPORTS TALENT ASSESSMENT PLATFORM Smart India Hackathon 2025

Key Skills: Hackathon Development Team Collaboration Project Management Innovation

Developed an AI-powered mobile application for sports talent assessment using computer vision to analyze fitness activities such as sit-ups, jumps, and running in real time. The system provides instant feedback on form accuracy and performance using MediaPipe, OpenCV, and Python. Built features including cheat detection, automated leaderboard ranking, and offline-first functionality optimized for low-end smartphones. Designed for scalability and rural accessibility, supporting nationwide athlete talent identification aligned with sports development initiatives

NPTEL ONLINE CERTIFICATION - Marketing Management

Provider: Indian Institute of Management Bangalore

Aggregate: 65.20 / 100

Key Skills: Marketing Fundamentals Market Segmentation Consumer Behaviour Market Analysis

This course on marketing helped me to understand the basics of marketing, the concept of segmentation, targeting, differentiation and positioning, the 4Ps of marketing, consumer behaviour and business marketing

NPTEL ONLINE CERTIFICATION-ABC's of Supply Chain

Provider: IIS (Deemed to be University), Jaipur

Aggregate: 74.50 / 100

Key Skills: Supply Chain Management Logistics Inventory Management Operations Management

This course provides a comprehensive overview of supply chain management, covering fundamentals, strategy, planning, operations, performance measurement, risk management, sustainability, and emerging trends.
